Idesia Technologies Environmental Policy

This is the Environmental Policy of Idesia Technologies Ltd.

Idesia Technologies is committed to the continual improvement of its environmental performance, minimising its environmental impact and making resource efficiency a core requirement of all its operations. Idesia Technologies will endeavour to encourage and influence business partners to adopt the same principles.

Idesia Technologies will;

- Monitor and manage its consumption and use of energy.
- Work to reduce the consumption of water within its buildings.
- Work to reduce the volume of waste within its buildings
- Monitor and work to reduce its contribution to environmental emissions from travel undertaken for business purposes.
- Use local suppliers where appropriate and will encourage its suppliers to commit to improving environmental performance.
- Seek to provide appropriate information and support to ensure that all staff understand how they can contribute to Idesia Technologies' Environmental Policy.
- Seek to raise awareness amongst our business partners of the impact they can have on improving their own environmental performance.
- Annually review its targets and review its Environmental Policy accordingly.

Colin McDonald,

**Company Director
Idesia Technologies**
